Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Lyles U.S. Patent 2,889,148.

Lyles disclosed a balance practicing machine comprising a seat (13), a pedestal (11) supporting the seat on top of the pedestal; a drive assembly (23) that provides a swinging motion (column 2, lines 26-39) in a first direction to the seat and a pivoting motion in a second transverse direction of the seat (column 2, lines 54-60), the drive assembly is housed within the seat as shown in Fig. 1. The seat is shaped like a saddle.

Allowable Subject Matter

Claims 1-7, 14-15 are allowed.

Claims 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
